

## **MECHANICAL APPLICATIONS ENGINEER**

**AMS CAD + CAFM Solutions is an engineering consulting firm and an Autodesk Authorized Developer, Value-Added Reseller and Training Center. AMS provides CAD-related products and services to help companies solve their manufacturing, AEC and facility management-related business problems. AMS offers competitive salary, excellent benefits and the opportunity to join a growing company with great people and a challenging, rewarding work environment.**

**AMS is looking for a qualified individual to join our Autodesk team as a Mechanical Applications Engineer providing professional services and pre- and post-sales technical support.**

### **RESPONSIBILITIES**

The primary responsibilities of this position are consulting, implementation, and training services related to Autodesk's manufacturing applications. This position requires the ability and willingness to:

- Work with sales prospects to help define their mechanical CAD-related needs and propose solutions to address those needs
- Assist clients in the adoption of new technology through classroom instruction, mentoring, technical support and related activities
- Provide software- and industry-related technical demonstrations and presentations at seminars, workshops, and client sites
- Provide comprehensive technical and application support to prospects and clients via telephone/web/E-Mail

### **REQUIREMENTS**

- Bachelor's degree in mechanical engineering or a related field
- Experience with AutoCAD 2D and with 3D CAD mechanical design software like Autodesk Inventor, SolidWorks, Pro/Engineer, or CATIA
- Strong communication and client service skills
- Strong presentation skills
- Strong organizational, problem solving and time management skills

### **HIGHLY DESIRED**

- Knowledge of data management applications like Autodesk Vault, BlueCielo Meridian, or similar
- Experience in a teaching or client facing role
- Knowledge of PC/MAC Operating Systems and Networking

### **TRAVEL REQUIREMENTS**

- Up to 30% travel is required (drive to clients typically in Northern & Central NJ and NYC)
